Studentenwoningweb https://www.studentenwoningweb.nl/	Rooms are assigned based on registration time. Also some rooms are assigned based on lottery system.

General advice:

- Watch out for scams! There are some people who are taking advantage of your eagerness to find a room. If you would like us to check an offer, please send an e-mail to studentaccommodation@vu.nl
- In July, August and September, it is really hard to find a room in Amsterdam. You could also consider finding temporary accommodation outside of Amsterdam, for instance Zaandam, Almere, Hoofddorp etc. Once the market is less tense, you could try to move back to Amsterdam.
- Also look for rooms from students who are subletting: Student that are going abroad for their studies/internship will try to sublet their room during their time abroad.
- Tell as many people possible that you are looking for a room. A lot of rooms in the private market are assigned through word of mouth
- Some students try to find a room together (flat sharing). You could try this, however it is quite hard to get a bigger apartment if you don't have an income in the Netherlands. It is not only hard to find a room in Amsterdam but also apartments and houses (rent or buy) can be a challenge.
- It is still possible to get on the waiting list if you are eligible for our service. Check out www.vu.nl/accommodation for the rules, the steps and the offers.
