Learning outcomes
All Master's students must develop into honorable academics, responsible practitioners and responsible members of society. Much priority is given to achievement of the highest possible level of know-how and expertise in the field of the relevant Master’s Programme. All Master's students must be able to operate at an academic level in terms of intellectual development and the quality of their work.

The following attainment targets have been formulated on the basis of these general principles.

Upon completion of the programme the student:

1. Can make relevant (academic, managerial and societal) contributions to the field of entrepreneurship, using academic research skills
2. Demonstrates up to date theoretical and empirical knowledge about the entrepreneurship phenomenon
3. Can assess, produce, and develop innovative, viable, high-quality research-based ideas in various (international) real life contexts.
4. Can communicate effectively and univocally with experts as well as laymen, both orally and in writing.
5. Can formulate own opinion on the consequences of entrepreneurial behavior within society, their outlook including both economic interests and environmental, societal and ethical concerns
6. Can take responsibility for own learning, knowledge and actions

Teaching
Tuition is carried out in plenary lectures and work group meetings. Much attention is paid to an active method of studying. This includes writing study papers, working on cases and preparing practical assignments. In this way students become familiar with the application of advanced theory to practical problems. It also serves to integrate the theory studied in the individual courses into a comprehensive body of knowledge. Papers are written both individually and in groups of two or three students, thus furthering the students' ability to work in teams.
Apart from developing the student’s communicative skills in oral and written presentation, much attention is paid to the development of critical judgment in assessing research work of others.

**Enrolment for courses and exams**
For all VU courses and all examinations you wish to take you are required to register through VUnet in advance in order to be admitted. For all UvA courses and examinations you have to register at UvA.
